

Customer Care Comfort Club

Your Customer Care Comfort Club Benefits Include:

- * Air Conditioning 18 Point Precision Tune Up
- * Furnace 18 Point Precision Tune Up
- * 10% to 20% off Repairs
- * Regular Rates on Diagnostic Fee from 7 AM to 10:30 PM 7 Days a Week including Holidays

** Note: Precision Tunes of Furniture and A/C does not include cleaning of evaporator coil and blower assembly if needed but are discounted if so.*

** Just one emergency call could pay for the whole plan.*

Priority Service

In the event additional service or emergency service is needed, we service our Customer Care Comfort Plan member's first.

Reduced Monthly Energy Costs

Properly maintained equipment does operate more efficiently. According to studies, a maintained system will save you 10 – 15% on your energy bills.

Certified Technicians

Factory trained on the industry's latest technology and providing environmentally friendly products.

Extended Equipment Life

No one would run an automobile without regular service and oil changes. But they will neglect an important piece of household equipment – their heating and air conditioning system. With proper maintenance your heating and air conditioning system will provide you with worry-free comfort.

Peak Performance

Maintenance check-ups can reveal potential problems or hazardous conditions and provide for timely repairs that can be taken care of, before you find yourself with no heat in the winter or without air conditioning in the summer. Your system will deliver its best performance under the most severe weather conditions as well as during hundreds of operating hours by undergoing regular scheduled maintenance.

Convenience of Scheduling

Twice yearly system checks scheduled to suit your busy lifestyle. We keep track of when your maintenance is due and our friendly staff will call to remind you.

Affordable Program

The one year price for the Customer Care Comfort Club is less than an average emergency service call. This is not an expense but rather a wise investment in your home.

Automatic Renewal

Uninterrupted service to your equipment. Your Customer Care Comfort Club will be renewable from year to year unless cancelled by either party.
